This office will help patients by providing treatment information for their insurance forms. However, this dental office cannot render services on the assumption that our charges will be paid by an insurance company. I understand this facility is not a participating provider of my insurance network and that I will be financially responsible for any additional out-of-pocket costs that may result. I further acknowledge that it is my responsibility to verify my out-of-network benefits with my insurance company and I will not hold Dr Dollins DDS liable for any obscure or omitted contractual language in my insurance contract. _____ I.

I consent to receiving appointment reminders and other healthcare communications/information through email and/or text ____ I.

Pediatric Patients Only

In order for the staff to develop a patient/doctor relationship with your, we ask that you stay in the waiting room during your child's treatment. Children act differently without the parents around and in this way, we can get to know your child better. Don't worry, we will never do a procedure without your consent. WE take a great amount of time explaining everything we do to the child and to you. If you have any questions, don't hesitate to ask, and encourage your child to ask as well. We also take time to work through any fears the child may have of the dentist and our surroundings. That is why we allot as much time as any adult being treated. During the first visit, we talk to the child, answer questions, do a cleaning, take X-Rays (after age 6), and give a complete head, neck, and oral exam. For younger children, we will complete as much as the child will allow us. Afterward, we will bring the parent(s) into the exam room, discuss our findings, treatment plan, and costs, and answer questions. WE will not force your child to do anything against their will. This only encourages fear and dislike of dentists as well as other doctors. Please do not threaten or use "scare tactics" to get your child to cooperate with us. If we absolutely cannot get your child to cooperate, we may refer her/him to a pediatric dentist (a dentist who specializes in child dentistry)._____ I.

EXAM VIA TELEDENTISTRY CONSENT FORM

Advanced Dental Centers will be using TeleDent's remote communication technology to conduct problem-focused evaluations/re-evaluations virtually, to help manage your oral health problem and to determine whether you have a condition that requires immediate in-office treatment.

During the current pandemic the federal government announced that it will not enforce HIPAA regulations (privacy for health records) in connection with medical and dental offices' good faith provision of medical or dental services using non-public facing audio or video remote communications services. Remote patient consultations may take place over applications that allow video chats such as Apple Face Time, Facebook Messenger video chat, Google Hangouts, Skype, or Zoom and may involve or be based on photos or videos taken with smart phones by the patient and transmitted to the dental office. Please do not contact us using public-facing services such as Facebook Live, Twitch, or TikTok, which are not permitted by the federal government for this purpose.

As always, our office will take dental record confidentiality very seriously, and will do what we can under the circumstances to protect the information you send us. While we believe the risk to such confidentiality is not high, it may be greater than it would be if these remote electronic communications were encrypted, which is one of the main HIPAA requirement's that is being relaxed during the nationwide COVID-19 public health emergency.

Certain major dental plans have announced that they will reimburse dental offices for conducting such remote evaluations, and we will submit claims in connection with them.

Our dental office is using one or more of the permitted modalities listed above for remote transmission of information to conduct limited problem focused evaluations. While entirely adequate in the vast majority of cases for such limited purposes, these evaluations may not reveal conditions that would be discovered during an office visit or through the use of specialized teledentistry technology.

Please indicate your understanding of and informed consent to these terms, which will be in effect until the government rescinds its suspension of these HIPAA requirements, by sign your name in the space provided and return via email to this office.
